**Metalarte Icons** is a new category in the Metalarte catalogue. A tribute to designs that withstand the test of time and changing fashions. The ones that give us personality and make us recognizable as a brand in the world of lighting. They include lamps such as **Alta Costura** by Josep Aregall, **Dojo** by Antoni Arola and **Triana** by Ramón Úbeda and Otto Canalda. We have refreshed and updated them with new finishes.

## Triana

Triana is a floor lamp in the manner of those made in the past. With three feet in this case. Elegant and noble. With a sculptural housing and a fine hand-made chinz lamp shade. Its singularity is that it comes in three shade sizes for the same base, shades that can be changed around and give it three different personalities according to their size: small, medium or large. All are just as good in the living room of the most select houses or the hall of the most elegant hotel. Designed by Ramón Úbeda and Otto Canalda, it came onto the market in 2008 with a black lacquered foot, stylised like a stiletto heel. It is now available in three new versions that triple its possibilities: In bright white colour, luminous yellow –also for the shade– which will not go unnoticed, and a quiet version in natural wood finish to satisfy Nordic taste.
