Metalarte Icons is a new category in the Metalarte catalogue. A tribute to designs that withstand the test of time and changing fashions. The ones that give us personality and make us recognizable as a brand in the world of lighting. They include lamps such as **Alta Costura** by Josep Aregall, **Dojo** by Antoni Arola and **Triana** by Ramón Úbeda and **Otto Canalda**. We have refreshed and updated them with new finishes.

Alta Costura

It is one of the indisputable classics of Spanish design. Born in one of the high moments of international presence, during the memorable Barcelona Olympic Games in 1992, it has managed to survive all the crises that were to come later. The secret of its long life is its simplicity: a translucent sheet that gives it a textile appearance, rolled around a mast that is also the support for the light source. But it is not folded in any old way. Josep Aregall was able to do it in such a manner as to give it an elegant, unrepeatable and inimitable bearing. That is why it is called Alta Costura (Haute Couture), lighting in gala dress. It is buttoned at the back and comes in three sizes. Available now with more decorative designs and paint finishes with the guarantee of Axalta.
