Metalarte is evolving. We have entered a new era, with the same dedication to our vision and the application of the experience acquired during more than 80 years of our history as a brand. Looking to the future, but without losing sight of the achievements of the past, and once again celebrating the best of Spanish design. This is just a snapshot of the exciting things to come, a catalogue with a variety of textures and innovations, like the one we are presenting here: **Alta Costura flags. It isn't easy to find a completely new concept in the lighting market today. But, here is one.**

Metalarte Flags

Flags are designed to wave in the wind. In interiors spaces there are flags, but no wind. The flags become flaccid and lose much of their representative power. They don't stand out. Metalarte offers a novel alternative, developed from one of our flagship models: the Alta Costura lamp designed in 1992 by Josep Aregall, a symbolic year for the city of Barcelona, host of all the world's flags during the Olympics. Around the flagpole of this iconic design, a translucent sheet undulates gracefully, which now serves to support any flag or banner: countries, communities, cities, organizations, corporations, associations, clubs... they never wrinkle and, what's more, they provide light. Perfect for the newsroom, for institutional offices, for sports clubs, for the hall of a hotel or just to display with pride.

About Metalarte

Metalarte is a decorative lighting brand within the Luxiona Group, which is defined by a vision that mixes the contemporary with the traditional and the capacity to constantly move forwards and adapt to changing times. Since its foundation in 1932, Metalarte has maintained a catalogue that balances the future and the past, with a clear focus on Spanish design and its creators.
